Agenda Item Request Form

ITEM: Consideration of support for an application for a National Fish & Wildlife Foundation (NFWF) Emergency Coastal Resilience Fund grant for the Frederick Street wetland restoration and flood mitigation project.

BACKGROUND INFORMATION: Flooding has been an ongoing problem on Frederick Street that has been worsened due to the damage to the adjacent wetland area from Hurricanes Michael and Sally. The grant application is for funding of planning, design, permitting, and (hopefully) construction of a project to restore approximately two acres of wetland and improve downstream drainage conveyance to alleviate the flooding.

DEPARTMENT HEAD RECOMMENDATION: Approve

Budget Impact

Budgeted? No: **X** How Much budgeted? **N/A**

If more, where do you suggest funds come from?
NFWF grant
