

Agenda Item Request Form

ITEM: Consideration of Approval of Panhandle Engineering Task Order PE #13106 for SRF Area U – Phase I and Phase II.

BACKGROUND INFORMATION: On February 27, 2018, the Panama City Commission approved a Task Order for Panhandle Engineering for design, permitting and CEI for the Bunkers Cove Water System Improvements project. The design and permitting portions were completed and the project was sent out for bid, but before it could be awarded Hurricane Michael hit our community and the project was put on hold.

Engineering would like to proceed with the project, now identified as “SRF Area-U” through the State Revolving Funds Grant and using Panhandle Engineering as the project’s Lead Engineer.

Please see the *Area-U Phase I* Task Order #13106 detailing the revised scope of services for design, permitting and bidding with current pricing adjusted to accommodate inflationary costs of construction.

Area-U Phase II Task Order #13106 details design and permitting for the portion of Area U that will be included in the project but was not part of the original project’s scope.

The 2018 Bid invitation and 2018 Bid Tabulation are also attached for reference.

DEPARTMENT HEAD RECOMMENDATION: Approval

Budget Impact:	Work Outlined in Phase I Task Order:	\$192,735.23
	Work Outlined in Phase II Task Order:	\$501,985.54

Budgeted?: Yes: No: How Much budgeted?

If more, where do you suggest funds come from?

Cost Center Affected:

- Personnel \$
- Operating \$
- Capital \$
- Revenue \$

Requested By: Jared Jones, Assistant City Manager/Interim Public Works Director

Date: February 14, 2022
